Alameda Woman to Be Hostess at Big Ball in S. F.

MRS. H. J. WINTER of Alameda will host the ball of the old Independent Rifles next week.

Members of the Independent Rifles to Give Annual Party March 5

Last night members of the Independent Rifles, a military body organized in San Francisco in the 70's have announced that March 5 has been set as the date of the annual uniform ball of the organization. The ball will be held in California Hall, 1010 Broadway, San Francisco. Elaborate decorative features are being arranged. Membership in the rifles is drawn from all of the bay counties and the crowd promises to be large.

POLICE DISCUSS CHARTER CHANGES

As a result of a meeting of the Oakland police force yesterday in Police Judge Tyrrell's court a committee composed of one member from each rank in the department will consult the other officers of similar rank and decide what amendments are desired by the police to the present charter of the city.

Soul Mate Said to Figure in Divorce

What is declared to be the real cause of the Martha Snow Bissell-William A. Bissell divorce, in which the Berkeley society matron won from the former Alameda civil engineer and colonel of the Light Infantry Engineers in France was revealed today following return of papers in the case to the files two weeks after the decree by Judge Dudley Kinsey.

Check Charge Holds Real Estate Broker

James B. Taylor, a real estate broker with offices in the Bacon block, is held in the city prison on a charge of passing a fictitious check following his arrest today on a warrant issued by O. S. Prince of 1610 Eighth street, Prince accuses Taylor of giving him a worthless check for \$100 on January 18.

WOMEN TO BE GUESTS

The Women's Auxiliary of Oakland Post No. 4 of the American Legion will hold its regular social evening on Monday February 22 in the Pacific building. Mrs. Carroll Marks, department president of the State Auxiliary and Mrs. Elizabeth Drendall, state secretary, will be honored guests of the evening. Refreshments will be served.

\$5,000,000 FRAUD SCHEME FOILED BY CORSET STEEL

Lone U S Agent Saves Government Big Loss in New York.

(Just as truth is stranger than fiction, so the reader may find in the newspaper columns more fascinating romance and mystery than is contained in the magazine or the novel. proof. The TRIBUNE has selected from its news files one hundred mysterious stories that have attracted the attention of readers during the past years. Here is another of them.)

COVERED with the dust of years and bound up in cell upon cell of the red tape which has become a symbol of official procedure the reports of the various government divisions of New York City, the Tribune has selected from its files one hundred mysterious stories that have attracted the attention of readers during the past years. Here is another of them.

SURE OF FRAUD

Pursuing my inquiry aided by the opportunities presented by my contact with gaugers, weighers, samplers and other employees of the Government I felt at last reasonably sure of the fraud which was being practiced.

AWKWARD POSITION

Immediately I saw such suspicious actions on the part of Thomas Kellogg checker for the import company that I demanded that he explain in order that I might ascertain the reason for his peculiar position and the fact that he was making notes in his book with one hand while the other hand and his knee were in an aperture at the end of the scale—a position which was extremely awkward and suspicious.

BRITISH BANKERS REFUSE TO AID IN AUSTRIAN RELIEF

President of New Republic Says Nation Will Reject Dependency Plans

LONDON, Feb. 24.—British bankers have refused to participate in the forthcoming Paris financial conference to consider measures of Austrian relief. It was learned from a reliable source today that British bankers cannot assist in extending foreign credits because the home demand for cash is so great they cannot give aid elsewhere.

City May Get Site for Motorists' Camp

A forecast that the City of Oakland may maintain its projected automobile camping park on the lands adjoining the Chevrolet plant was contained in a letter to the Board of Park Directors from Norman de Vaux of the Chevrolet Company, saying he is willing to confer on the subject any time the Park Board desires.

TRAFFIC IS ONE OF SLEUTHS ABOUT HONOLULU

Federal Officers Want Speedy
Motor Boats to Run
Down Smugglers

HONOLULU, Feb. 21 (The Tribune).—The sleuths of the opium traffic are being ed down by the eagles of the federal wing. If the report the federal grand jury returned is acted upon, Federal Judge W. Vaughn has been recommended to the attorney general and strongly recommended to act upon it. The grand jury has been persistent in its efforts to a marked degree in its attempts of the internal revenue department to stamp it out. Efforts being made weekly without interrupting the steady flow of contraband into the territory, where a large number of Celestials eagerly take it. So successfully has the effort been conducted of late that the price of contraband opium has fallen from \$1.00 per ton to \$0.50 per day ago.

Looking into consideration this and out of other facts put before them, the internal revenue officers there concluded that the bulk of opium smuggled into the territory was dropped off by the "Opium" boats from the Orient to the San Francisco bay or returning from San Francisco having successfully added seizures by searching for them there.

Out the transfer from liners to sampans was effected at sea under cover of darkness by the simple method of dropping the opium in the liner and picking it up by sampans.

With two speed packet boats not less than 15 knots speed and airplanes to track down and sampans taking delivery, the sleuths might hope to stop traffic.

Island Shriners Preparing for National Meet

Aloha Temple Plans Warm
Greeting For Nobles
of Whole Nation

HONOLULU, Feb. 21 (The Tribune).—The Aloha Temple of the United Shriners is here to put the finishing touch to the somewhat elaborate program of the Shrine in 1921. The Aloha Temple is making a special effort to make the visit of the nobles of the Shrine in 1921 a memorable one. The Aloha Temple is making a special effort to make the visit of the nobles of the Shrine in 1921 a memorable one. The Aloha Temple is making a special effort to make the visit of the nobles of the Shrine in 1921 a memorable one.

AMERICAN WAYS WITH WOMEN ARE JAPANESE PUZZLE

Hawaiian Orientals Declare
Suffrage Is Disguise
For Hypocrisy

HONOLULU, Feb. 21 (The Tribune).—A great many of the American women in Hawaii are puzzled by the Japanese attitude toward women. The Japanese women are not allowed to vote, and the Japanese men are not allowed to work in certain occupations. The Japanese men are not allowed to work in certain occupations. The Japanese men are not allowed to work in certain occupations.

are a little too eager to follow the fashions and that they are concerned a little too much in winning by personal charms.

It is a Japanese pastor Japanese Christian church. While America is known as a Christian country, its diplomacy is often un-Christian. It is not that there are a few Christians who are so scientific and who think all things evil, but that the conditions afford us a field for our Christian work in America.

DANCE ADDS TO PUZZLE

The American dance which is to be accompanied by a Japanese band is a puzzle to the Japanese. The Japanese are not used to the American dance, and they are not used to the American band. The Japanese are not used to the American dance, and they are not used to the American band.

candles showing the independence of spirit.

T. Matsumoto of the leading Japanese of the territory who is editor of the Hawaii Choho, a Japanese language publication, expresses his opinion as follows:

It is quite beyond my comprehension that the American people who are so scientific and who think all things evil, but that the conditions afford us a field for our Christian work in America.

And it is peculiarly small that the American people who are so scientific and who think all things evil, but that the conditions afford us a field for our Christian work in America.

Berkeley Bride Is Welcomed in Hawaii

HONOLULU, Feb. 21 (The Tribune).—The bride of Honolulu has returned from the United States with her bride, formerly Miss Edith Love of Berkeley, California. The bride of Honolulu has returned from the United States with her bride, formerly Miss Edith Love of Berkeley, California. The bride of Honolulu has returned from the United States with her bride, formerly Miss Edith Love of Berkeley, California.

KOREANS STILL UNFIT FOR VOTE, SAY JAPANESE

TOKYO, Feb. 21.—Extension of the Japanese electoral law to Korea must wait until the time when the people of that country are capable of exercising the duties of citizenship, so the Japanese government has decided.

The Japanese government has decided that the Koreans are not yet fit to be given the right of suffrage. The Japanese government has decided that the Koreans are not yet fit to be given the right of suffrage.

Girls Loaf on Jobs, Says Senator Smoot

WASHINGTON, Feb. 21.—Work in some government departments moves so leisurely that girl employees have been known to make their trousseaus during working hours, the Senate was told by Senator Smoot (R-Utah). The senator said he personally had investigated the situation in the offices.

Why he acted, it has got so that when I start for an office word is telephoned ahead that Senator Smoot is coming and for everyone to busy on their typewriters.

Who Framed This Up?

Governor Johnson's 1915

Budget for two years was - - \$36,000,000

Governor Stephens' 1921

Budget for two years is - - \$81,000,000

An Increase of \$45,000,000

What Does This Mean?

It Represents an Increase Equal to:

\$22,500,000 for each year.

\$1,875,000 for each month of two years.

\$61,643 for each day of two years.

\$2,568 for each hour of two years.

\$42.80 for each minute of two years.

Get This Straight!

\$42.80 a minute INCREASE

Does it look reasonable?

Do you want to pay it?

Support your legislator in demanding
that the State live within its income
or show why!

TAX INVESTIGATION AND ECONOMY LEAGUE

HERBERT W. CLARK, President

W. V. HILL, Secretary

1504 HUMBOLDT BANK BUILDING : SAN FRANCISCO

"The power to tax is the power to destroy"

Why automobile
manufacturers say
"clean your crankcase
regularly!"

Engine operation causes steady accumulation of road dust, carbon, fine metal particles, and other impurities in your crankcase oil. This contaminated oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

Your Instruction Book says, "flush out the crankcase regularly and fill with fresh oil." But these important instructions are often disregarded; cleaning the crankcase is a job generally disliked.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers, co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, — the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the proper grade of Zerolene.

Look for the garage or dealer displaying the sign shown below, — it means "Better operation and longer engine life," a service promptly given at a nominal cost.

DOCTOR SLAPS PATIENT'S FACE; PLEADS GUILTY

Controversy Over Bill Results in Rough Talk and Court Proceedings.

BERKELEY, Feb. 24.—A slap in the face in exchange for some alleged choice bits of the English language today brought Dr. H. W. Crane, local physician, to make explanations before Judge Robert Edmonds.

Dr. Crane was arrested on a late evening complaint sworn to by Francis L. Callahan, a husband of 1937 who was attending the University of California. Crane in a cigar store last Monday. Immediately there ensued, according to both parties concerned, a verbal exchange of words which Callahan swore the physician.

"You're a peach of a doctor," Callahan is declared to have stated. "You've made a fine mistake out of me."

Callahan is declared to have emphasized his remarks by a few choice contributions concerning Dr. Crane's medical skill. The physician planned his former patient's escape.

Judge Edgar set 9 o'clock Saturday morning as the time for sentence. Earlier in the week Dr. Crane signed in police activities as the result of his automobile being stolen by a man and woman. The machine was abandoned in Claremont but the pair responsible for its theft have not been apprehended as yet.

Inscription on Egg
Forecasts Millenium

Consideration has been caused among the superstitious here by the finding of a hen's egg bearing the inscription, "Christ Cometh." They are confident it means the second coming of the Messiah and the early

The egg, which is now in the possession of John Strickland, proprietor of a second-hand store, bears the inscription in distinct though irregular letters about three-eighths of an inch high. The letters seem to be formed

Several hundred persons have viewed the egg in the last few days and have voiced many explanations of the phenomenon Strickland, however, declares he cannot explain it.

THE LANGDON CASE.

Japan has transmitted to the United States government an official report of her action in connection with the murder by a Japanese sentry, in the Russian city of Vladivostok, of Lieutenant William H. Langdon of the American Navy. Lieutenant Langdon was returning to his ship, the cruiser Albany, early in the morning of January 8 last, when he was shot through the back by a Japanese soldier on guard before a barracks gate. The American naval officer was lawfully on shore in Vladivostok and when mortally wounded was walking peacefully along a public thoroughfare; the presence of a Japanese military force, performing sentry and other police duties in Vladivostok, was without legal or moral justification.

The communication from the Japanese government recites that the major-general in command of the Vladivostok garrison has been relieved of his command and retired from the active list, that one other officer, a major, has been sentenced to thirty days' arrest in barracks, that two officers of lesser rank have been punished with twenty days' arrest, one officer with a milder punishment, and the sentry who shot Lieutenant Langdon has been confined for thirty days for giving conflicting testimony at his trial by court-martial. The military court, it is officially stated, placed the responsibility for the killing directly upon the commander of the garrison, the major in charge of the barracks, the officer of the day and the commander of the company to which the sentry was attached.

But the result of the Japanese inquiry does not impose on any one the punishment that fits the crime of murder or assassination. A general is retired for the alleged offense of not knowing his barracks regulations and a sentry is given thirty days in prison for trying to mislead the military court that tried him. But no mention is made of the murder of an American naval officer in the streets of a Russian city unlawfully occupied by a Japanese army. No punishment for the murderer or his accessories is imposed.

Otherwise the Japanese note is in admirable form and spirit. It expresses sincere regret at the sad incident and begs the United States to believe that Japan has proceeded in a sincere spirit in dealing with the affair.

Due to the rules of discipline which govern all military organizations in the field, the conclusion of the Japanese court-martial that his superior officers and not the sentry himself were responsible for the death of Lieutenant Langdon must be accepted. The punishment of the officers is as severe as was to be expected, and the apology by the Tokyo government will be accepted as removing the incident from among those causing embarrassment to the relations between the two countries.

IMPORTED POLITICS.

The conflict between the different government and governing factions in China has again been brought to the United States and propagandists for one side or the other are pleading their causes before the American people. To what effect cannot now be seen, but it is to be hoped to no effect.

Among the most voluble spokesmen for Chinese political efforts are the young Chinese students in American universities. Their ambitions and industry are laudable, but their knowledge of what is the proper government for their country is not yet quite trustworthy. One might as well think of consulting a freshman at the university to ascertain the best methods of administering the university.

Partisans of Dr. Sun Yat Sen, the head of the Canton faction which has set up a separate "constitutional" government in the south, are again active in this country. This faction includes in its directorate Dr. Wu Tingfang, formerly minister to the United States; Tang Shao-yi, governor of the Manchurian provinces under the Manchun dynasty; and other old line politicians who have never given undivided allegiance to the republican form of government.

The safest course for American citizens is to let China's internal political quarrels in the list

of those things not deserving serious attention, unless they are found to be the cause of the need for American money to relieve the suffering of the Chinese people.

ADVERTISING A CITY.

San Francisco has started, or has had started for her, a campaign of self-advertising and self-promotion, a plan to introduce herself more fully and favorably to the world. This is a good plan and it should prosper. San Francisco has furthermore made the scope of her effort slightly more extensive than her municipal boundaries; it is the intention to include all Northern California within the advertising campaign, and the cities on the mainland and in the interior have been asked to cooperate in the advertising campaign. This is also a good idea and it should prosper.

If the exploitation campaign helps San Francisco it will also help, in a degree, the rest of Northern California. Such cooperation from the neighboring counties and communities as may be given should be given willingly, with the knowledge that what helps one will help all. If outsiders are brought here and shown the resources of the northern half of the State they are apt to make their choice anywhere in this section, all of which is a mighty good place to live in. If commerce and trade is increased the hinterland as well as the immediate coast profits. If industrial plants are established on any of the numerous harbor sites around San Francisco bay and its several arms, the whole district will be benefited.

But there are two sides to this cooperation idea—just as there is concerning every other cooperation idea. If San Francisco now asks and expects to receive the assistance of the continental and interior cities in her exploitation program she must be willing and ready to reciprocate. It will prove somewhat of a handicap that the record of the city across the bay in cooperation is not entirely spotless; but this may be overcome by a judicious change of tactics.

Take the San Francisco delegation in the legislature, for an example. It has not been conspicuous for giving aid to the other counties of the north in their plans before the law-making body. It has been rather self-centered, independent and at times malevolently contrary. It has won no interior friends by its conduct at Sacramento. And it need occasion no surprise if the San Francisco promoters find in the valley and mountain districts a positive unresponsiveness to the present promotion effort. Just now the San Francisco delegation, backed by the municipal political machine of that city, is endeavoring to put through a scheme to take control of the San Francisco harbor out of the hands of the State and place it in the hands of the political machine of the municipality.

In the continental cities there is a pardonable contention that the harbor of San Francisco belongs not alone to the large city on the peninsula, or to all the cities that jut into the bay, but to the entire hinterland from Summit to the sea, from the Tehachapi to the Oregon line; that it is not only an important State facility, but a thing for the service of Nevada, Utah and other States. There might also be cited the effort of San Francisco to deprive other cities of the advantage of a differential in railroad switching charges, the interference in irrigation projects in the San Joaquin valley, the acts of a city official in interfering with the adjustment of the water supply problem of the Eastbay cities, and other instances.

But the consciousness on the part of San Francisco that she ought to do something to advertise her virtues and possessions may work a favorable change in this disposition to obstruction. In asking cooperation the city across the bay may discover that the giving of cooperation is likewise becoming and sometimes necessary.

Just as nearly all the Eastern newspapers were pluming themselves on the mild winter and commiserating with those who fled to Palm Beach to escape winter's expected rigor, along came an ice-laden hurricane that reminded them of the virtue of silent housing. We shall not say it served them right, but it taught them a wholesome lesson.

Maximilian Harden says scolding by America would help European nations. It never helped Germany any, at a time when scolding was all the American government did.

UNIVERSITY GEOGRAPHY.

The specialization of geography is the platform of the recently inaugurated president of Clark University. That sounds odd as subject for university emphasis; but the address all fits in the attitude of the public. Most persons think of geography as an elementary school study, connected with painfully drawn maps and beautiful charts pasted all over with diminutive representations of the chief products of different sections of the world. Very few people look upon geography as a serious subject, a thorough knowledge of which would materially benefit the nation's foreign commerce, the diplomatic service and industrial progress. President Alwood explains his point of view: "We shall offer to teachers, to men entering large business enterprises, especially international trade, and to all those who wish to enter consular or diplomatic service, special facilities in the study of geography. We must look forward to developing an institution which will be a great bureau of information regarding the present conditions of this and distant lands. We shall welcome special students, explorers and authors who wish to make Clark University library their headquarters while they are preparing manuscripts for publication."

"Our citizens have possessed so many advantages in the natural resources of the land, in its vast extent and varied climate, in its early isolation from the disturbances of the rest of the world, that they have not been compelled to go deeply into the study of world geography, language or customs. The time has come when the United States must either know more of such things or achieve only its second best in international affairs."—Brooklyn Times.

NOTES and COMMENT

What is pretty likely to attract attention to the demure despatch to the effect that the item of \$367,000 to provide for the time honored distribution of free seeds was stricken from the House agricultural appropriation bill in the Senate when it came up for consideration on Washington's Birthday. It there is no procession from this action a perennial inspiration for editorialists in the number of the land will be gone.

A definite shrinkage in values is shown in the late H. C. Pack's bequest to Princeton. The bequest was calculated on a face value of fifteen millions, but according to the finance committee of the beneficiary institution it has a value now of but six million. The shrinkage is due to reduced valuations and taxes. The instance must afford some idea of how private fortunes are fading.

The coming of aliens is to be restricted in fifteen months by limiting immigration to three per cent of the alien born in the country, according to the census of 1910. That will at least enable some idea to be formed of what to do next.

More interest was manifested in the illness of Louise, perhaps, than was ever shown in the similar misfortune of an artist of the stage. Few of the greater artists have collapsed in their heyday, but an artist is evidently something in the Chinese personality that appeals to people in general.

A million and a half may not go very far toward constructing the naval base, but it will finance a start, which will constitute an exhibit showing just where the base is to be, and incidentally enabling whom it may concern to see the wisdom Congress displayed in its decision.

The Texan members of Congress who had it out at a public session have now shaded off into the letter-writing stage, which is an indication that all danger is past. When a Texan assumes his blood-thirstiness with a pen, all his neighbors must come forth from their places of safety.

Intoxicated dogs which led prohibition enforcement agents to an illicit still show what long-legged stuff will do. And it illustrates the different effect on different classes of consumers. Not every lambs would thus lead the authorities to it.

From the sublime to the ridiculous was strikingly illustrated by Mrs. Peete, convicted of having killed a man, and Mrs. Bailey, charged with having killed another. They quarreled and came to blows over the shape and "beauty" of their feet. That supplies the ridiculous end of it, and perhaps "beauty" could be made to read "serious." There is nothing sublime in murder.

If Herbert Hoover shall refuse to accept a cabinet portfolio, as anticipated in a despatch, it will make the strenuous opposition to his appointment which is understood to have been made seem rather foolish.

SPIRIT OF THE STATE PRESS.

Alfred P. (Pompey) Hoyt, editor and proprietor of the Jamestown Magnet, is dead after a long illness. He was a native of California, being born at Los Gatos, May 30, 1858, and was widely known as a printer all over the State. Some years ago he was connected with the Calaveras Citizen in San Andreas, and made friends here. For several years he has conducted the Magnet at Jamestown, making of it a lively and interesting paper—Calaveras Prospect.

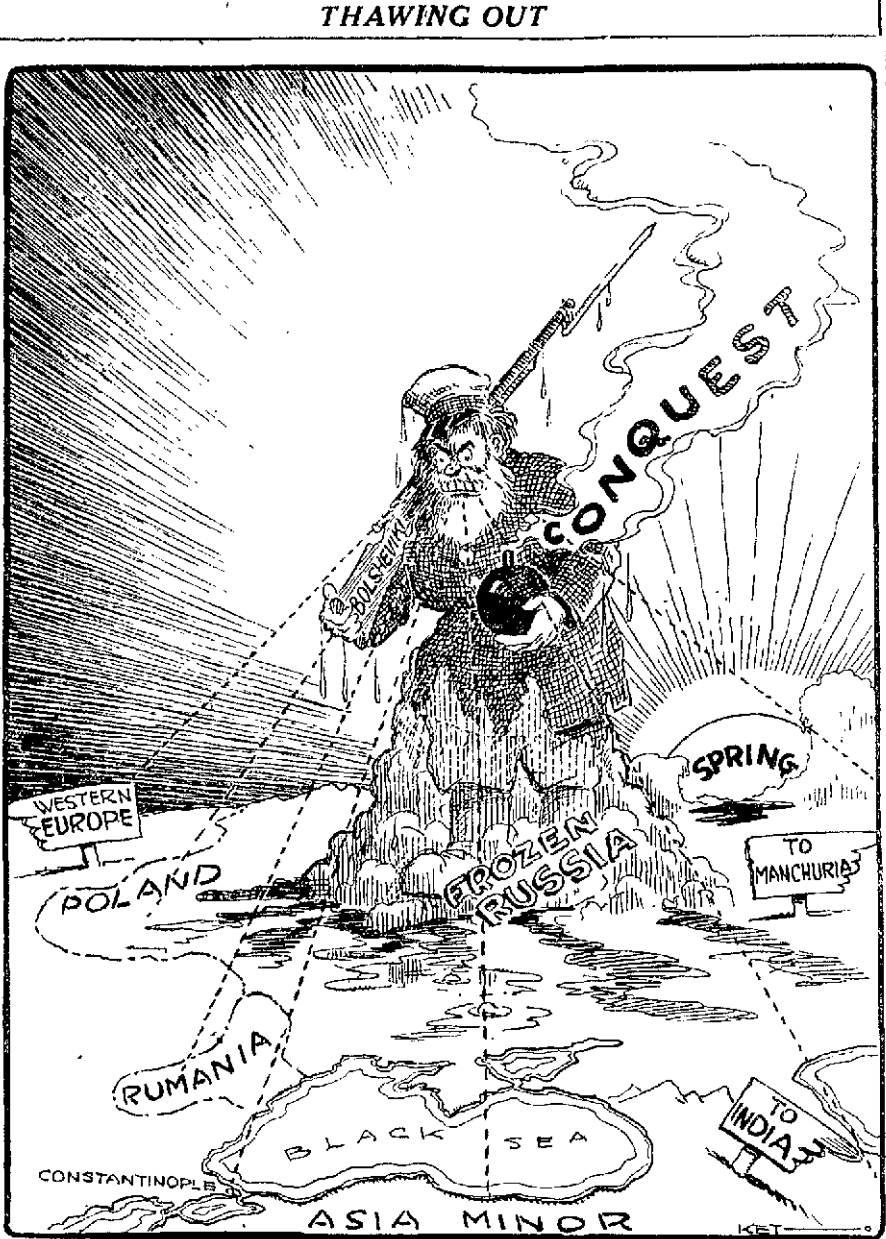

Twelve cases of perfectly good whiskey went begging for an owner Saturday. The whiskey in question was seized by Federal revenue officers aboard the Union Oil tanker Laving, at Port San Luis, and although the officers gave everyone on board a chance to claim, nobody owned it or could imagine how it came on board the ship.—San Luis Obispo Tribune.

Twenty-four million pounds of raisins were imported from Malaga, Spain, alone, during the year 1920. No wonder the raisin growers are in a ferment for protection. These Malaga raisins averaged 13 cents a pound, and the American consumer paid 45 and 50 cents. That is how true "cheapness" reduces the cost of living.—San Bernardino Sun.

The appeal made at the convention of furniture men in San Francisco a few days ago that employers desist from reducing wages in the face of trade depression displayed a tendency to meet the wage earners more than half way. The adoption of such a policy among business houses in general would do much to prevent the very trade depression which leads usually to salary cuts.—Palo Alto Times.

Mark Campbell of Los Angeles dropped two thousand feet from the pony blimp Wednesday afternoon, and landed gracefully in the water near Sugar Loaf. Campbell was "double-bird" for Marshall Island. He wore a Summer's life preserver. When Campbell jumped from the balloon he dropped like a ball for almost a thousand feet. The spectators along the beach watching the "blimp" about 500 yards. Then the parachute opened and the man's fall slowed up before he reached the water.—Catalina Island.

There has been introduced in the Assembly a bill which would make it a misdemeanor to pasture sheep on school grounds. Several years ago, if such a bill had been introduced, there would have been curiosity as to whether the assemblyman who wanted such legislation had ever taught school, and it so, whether it was the famous school teacher who was famous for being attended by a little girl named Mary who had a pet lamb.—Bakersfield Californian.

WORLD'S OCEAN TONNAGE EXCEEDS REQUIREMENTS

By DR. FRANK M. SURFACE

WASHINGTON, Feb. 23. — According to Lloyd's "Registry of Shipping," the total tonnage in the world's shipyards in 1920 amounted to 5,861,000 gross tons, or approximately 1,300,000 tons less than in 1919, but about 400,000 tons more than in 1918. The United States ranked first in the amount of tonnage launched, with a total for the year, according to the Bureau of Navigation, United States Department of Commerce, of 2,860,725 gross tons. But this was a decrease of 1,397,426 tons from the high record of the American yards in 1919. The 1920 production slightly exceeded the American launchings in 1918, when the total was 2,721,231 gross tons.

Great Britain ranked second in the amount of tonnage launched in 1920, with a grand total of 2,055,000 gross tons, according to Lloyd's. This was the record year for English shipbuilding, showing an excess of 435,000 tons, compared with 1919. This is the first time since the beginning of the war that England has exceeded her 1913 figure of 1,932,000 tons.

The following figures show the comparison of American and British shipbuilding for the past three years. The United States figures are those reported by our Bureau of Navigation, and the English data are from Lloyd's. All figures are in gross tons:

| | United States | United Kingdom |
|------|---------------|----------------|
| 1918 | 2,721,231 | 1,348,000 |
| 1919 | 4,258,161 | 1,620,000 |
| 1920 | 2,860,725 | 2,055,000 |

Japan launched 466,000 gross tons in 1920 compared to 611,000 tons in 1919. France increased her launchings from 32,000 in 1919 to 93,000 last year. Holland increased her output 46,000 tons reaching a total of 153,000 gross tons in 1920 and Italy increased from 82,000 tons to 133,000. The net loss in the world's shipbuilding was due to the decrease in the American program.

The world's merchant tonnage now consists of something like 60,000,000 gross tons, a figure far in excess of the 49,000,000 tons available in 1914 at the beginning of the world war. This surplus of tonnage, together with the present depression in the world's trade, is causing a serious situation at the present time. It has been stated that more than 500 British vessels are

WHEN TIMES GET BETTER
When are conditions in industry, commerce and agriculture better? This is the burden of many letters to the Star. It is a natural inquiry. It comes from farmer and industrial worker alike. All are concerned in a return to normal prosperity.
The average city dweller at first wasn't disturbed over reports of the smash in prices for farm products. "It means cheaper grocery bills," he said. But he found that cheaper food without steady work wasn't going to help particularly.
With billions run off from the value of the farmers' crops almost overnight, the farm family couldn't buy manufactured products liberally. So the demand fell off and factories began to close. Because the farmer out in Reno county, Kansas, couldn't realize on his wheat, the automobile mechanics in Detroit and the shoe factory operative in Brockton, Mass., were out of a job.
One thing that has been made evident to everybody is that the whole country is bound up together. A smash in the West brings the East down with it.—Kansas City Star.

Careful.

"Your little girl is the perfect image of you, Mrs. Huff."
"Yes, I know she is; but please don't let her hear you say so. I don't want her to become vain."—New York Sun.

SOCIAL CONGRESS VOICES TRIBUTE TO ETHEL MOORE

Homage Expressed in Memorial At San Francisco Meeting.

SAN FRANCISCO, Feb. 24.—Delegates attending the thirteenth annual California Conference of Social Work, turned aside from their discussions long enough this afternoon to do honor to the memory of Miss Ethel Moore of Oakland and the work she accomplished.

The memorial was expressed in a brief resolution written and presented at a round table luncheon of the conference session at the St. Francis Hotel by E. B. McGraw, the chairman.

McGraw, who was the builder of the famous South Park playground system in Chicago, who later was in Oakland for a time and now is Secretary of the Los Angeles Council of the Boy Scouts, is known as a writer of creeds and resolutions for conferences.

The resolution was presented as the closing feature of the luncheon at which representatives of Oakland, Berkeley and Alameda recreation departments spoke briefly.

TASKING POLICE TALK

Two sectional meetings, marked by the closing of the conference today, in both cases took a prominent part.

At a joint meeting of sections on recreation, education and health, Dr. Alvin Powell of the Alameda Health Center was chairman and one of three important addresses was made by Professor Charles E. Ruck, professor of education at the University of California.

Dr. Ray Lyman Wilbur, president of Stanford, spoke on "The Problem of Education and Recreation." Ruck spoke on "Education in Relation to Recreation and Health."

While this meeting was in progress, social workers interested in problems of delinquency, under the chairmanship of Professor Alexander M. Kuhl of the law department of the University of California, heard two addresses and indulged in a general discussion. A. C. Keane of the San Francisco adult probation board, traced the historical roots of adult probation, defending it against attack.

JUVENILE OFFICER SPEAKS.

Jesse L. Dierdt, deputy juvenile court officer of Alameda county, was the second speaker. His theme was the juvenile court and its status and tendencies.

Recalling that the California juvenile court had been in existence eighteen years, the Oakland man said in part:

"At first its jurisdiction covered children only under 16 years of age. This has been gradually enlarged until now it covers children under 21 years of age. This court is based upon a new understanding of the child and of the child's importance to the community. The child has a psychology, essentially different in many respects from the psychology of the adult, and in particular has a mind and character that is still plastic. From this new understanding of the child has resulted the institution of a new court, with new methods and new remedies.

But as to delinquency and incorrigibility, neglect and mistreatment of children, the jurisdiction of the juvenile court is founded upon basic needs and requirements. This court is no longer to be considered an experiment, but is now an indispensable agency of modern society. As it is a living institution, it will doubtless be changed and modified as years go on, but the juvenile court idea itself is based upon fundamentals and has come to stay."

At the luncheon of the recreation section, C. L. Glenn, assistant director of recreation in Oakland, represented this city and spoke briefly of the work being done here. Alameda and Berkeley also were represented.

Mrs. Helen A. Neal of the Berkeley Charity Organization Society and Roscoe D. Jones, president of the Alameda county union of social agencies were among those who spoke briefly at the luncheon of county children. County organization work was discussed.

Following the luncheon, such members as cared to go entered automobiles at the San Francisco city hall for a scenic drive while state board of health workers assembled in conference at 2:30 o'clock. Among the speakers at this meeting was to be Dr. Alvin Towell of Oakland, who has scheduled to talk on urban and rural health centers.

Tonight's general session was to be featured with an address by Mrs. Helen Thompson-Walley on recreational guidance as a factor in social work. Mrs. Woolley is director of vocational training in the public schools of Cincinnati, O.

Knits and Smiles at 98

GRANDMA BRYAN of Alameda, two years from the century mark, can tell any interested person how to grow old and do it happily.

Be Clean and Be Wholesome. If You Would Live Long, Says Aged Woman.

"The main secret of a long life is to live a clean one and to be thankful for what you have."

This is the advice of Grandma Bryan and she ought to know. Tomorrow she is to celebrate her 98th birthday at the home of her daughter, Mrs. M. C. Morris, 546 Pacific avenue, Alameda. A large number of children, grand children, great grandchildren and friends are planning to make the day memorable with "Granny," as she is affectionally called by everyone who knows her.

In her 98 years Grandma Bryan has collected a host of friends. Despite the years which she has been permitted to live her faculties are not dimmed and she can tell a joke or a humorous happening of the time she crossed the plains or mined in Eldorado county in the Argonaut days, with the best of them. She has lived a life full of incident and excitement. During the last few years, however, she has been enjoying life quietly in Alameda.

She was born in Kentucky in 1823. In those days the great Blue Grass state which had only just been explored by Daniel Boone and other pioneers was still the haunt of the red man and wild animals. Life was anything but dull. She was raised to the life of a pioneer without many comforts. This strict training of the frontier stood her in mighty good stead later when she came to make the journey overland to California.

At the age of 20 she was married to William Bryan, a young farmer living near the then village of Cincinnati. At that time it was not supposed to be overly healthy and one of the

Living to a ripe old age like ninety-eight, and for "Granny" Bryan they were ninety-eight summers, not winters, is within the reach of everyone, in the Alameda lady's opinion.

Some of her observations on how to attain a long happy life are: "Just live a clean, wholesome life."

"Don't do anything that you might be ashamed of later."

"Be thankful for everything that you receive."

"Don't worry for things you know you can't get."

"Be satisfied with what you have."

"Live the Golden Rule."

wedding guests chided my husband, predicting that within a couple of years he would be burying me." Here Grandma Bryan chuckled. "I not only saw that guest buried but all the rest of them, too."

Despite her 98 years Grandma Bryan is extremely active and with but slight aid from a cane, moves all about.

With the exception of incidents of recent happening, her memory is still very clear, she states. "Especially can I remember the incidents of crossing the plains. I suppose that was my greatest adventure, which may explain it."

William Bryan, her husband, died 14 years ago. A son, William Bryan, is a hardware dealer in Oakland. The other child alive is Mrs. Morris with whom she makes her home. According to Mrs. Morris every birthday sees a large number of Grandma Bryan's friends stopping in to wish her many happy returns for the day and she always receives large numbers of greeting cards from her friends in all parts of the country.

CONVICTED BRIDE GETS PROBATION WITH CONDITIONS

Restitution in Full for Goods Taken From Capwell Store Is Demanded.

On the condition that full restitution be made for the \$2000 worth of merchandise which she is accused of obtaining from the H. C. Capwell department store by charging purchases to the account of her husband, Mrs. Margaret Miller, nee Margaret Lacey, the 26-year-old bride of Mark Miller, son of the H. C. Miller, pastor of the Third Street Presbyterian church, was granted two years' probation when she appeared in Police Judge Morris Smith's court today.

At the same time the Capwell company and the insurance company which indemnifies the department store against loss by theft, arranged that a satisfactory agreement had not been made for reimbursement, and that unless some arrangement is made by tonight, warrants charging felony and obtaining money under false pretenses will be sworn to and served on Mrs. Miller.

Another condition of probation is that Mrs. Miller be taken to the home of her father, Arthur Lacey, a mechanical engineer and reputed capitalist of San Diego, and put under the care of a physician. It is said that, according to examining physician, Mrs. Miller is practically sane and suffering from mental aberration.

According to Special Officer Thomas King, house detective for the Capwell store, Mrs. Miller's father arrived in Oakland yesterday and visited the insurance company and store officials and promised to make full restitution for the goods alleged to have been stolen. However, no effort was made by him to make any payment, and until some adjustment is made the Capwell company will refuse to withdraw its application for warrants, according to Detective King.

Police Chief Frank G. Thompson refused to recommend probation for the bride, remarking that he considered that the department store should have first consideration, and that the suggestions of Officer King be considered in preference to the Police officers.

RE-ARREST THREATENED.

Detective King stated that he was informed that Mrs. Miller's relatives intended taking her to San Diego immediately. He said that he would follow them and return her here to face new charges, unless some satisfactory arrangement is made.

Mrs. Miller was arrested at the home of her husband, who is employed in the shipping department of the Mazda Lamp company, on January 22, by Detective King and Police Inspector Thomas Gallagher. It is alleged that nearly \$1000 worth of merchandise was recovered hidden away in trunks and locked drawers.

Following her arrest, Mrs. Miller pleaded guilty to three misdemeanor charges of obtaining property under false pretenses and applied for probation. Her case was set for February 23 for a report and sentence. By request the case was moved up four days on the court calendar and was called today. Detective King says that the Capwell company was not advised of the charges, and that it was "run over" without knowledge of himself and his employer.

WOMAN HELD AS ONE OF '30' GANG GIVEN FREEDOM

Ruth Rhea Is Released From County Jail on Order of Court.

Mrs. Ruth Rhea, wife of Present C. Rhea, who, it is said, has turned State's evidence against his pals of the so-called "Thirty Strong" gang, was released from the county jail today on an order by Justice Harry W. Dole.

Whether Mrs. Rhea was released as a result of her husband's "coming through" or because there is not enough evidence to hold her would not be indicated by the district attorney.

It is rumored that Arthur Flood, charged with Jack Reabe as Alameda bank robbers, may also be released, as a satisfactory agreement had not been made for reimbursement, and that unless some arrangement is made by tonight, warrants charging felony and obtaining money under false pretenses will be sworn to and served on Mrs. Miller.

Another condition of probation is that Mrs. Miller be taken to the home of her father, Arthur Lacey, a mechanical engineer and reputed capitalist of San Diego, and put under the care of a physician. It is said that, according to examining physician, Mrs. Miller is practically sane and suffering from mental aberration.

Police Frame-up Charged By Prisoner on Parole

Charging in Superior Judge George Samuels' court that Captain of Detectives Duncan Matheson of San Francisco had "framed" on Frank S. Muir, recently released on probation in this county, in order to have his probation revoked, Attorney A. C. Agnew today told Judge Samuels while endeavoring to show cause why an order of revocation of probation should not be issued for his client that Matheson had sent three policemen to apprehend Muir, during which time a bogus check was slipped into Muir's pocket by one of the officers.

The charges of Muir were vigorously denied by Captain Matheson. Agnew said that two weeks after Muir's release, after he had pleaded guilty to issuing a worthless check while he was in custody, a man approached him on the street in San Francisco and asked him if he had a check to cash.

The charges of Muir were vigorously denied by Captain Matheson. Agnew said that two weeks after Muir's release, after he had pleaded guilty to issuing a worthless check while he was in custody, a man approached him on the street in San Francisco and asked him if he had a check to cash.

According to Agnew, Muir answered in the negative, informing the man that he had had trouble enough with checks. He then stated that two officers came up and further questioned Muir, during which time one of them reached into Muir's coat pocket and pulled out a check, which later proved to be one of the checks issued by Muir when he is said to have been intoxicated and to which charge he pleaded guilty. The check had been made good, according to Agnew, Muir was then taken to the hall of justice and a petition signed many months.

Two officers, Muir and Agnew, were then taken to the hall of justice and a petition signed many months.

WHO'S SEEN BOY 10 YEARS OLD IN CORDUROY SUIT?

Information Will Be Received Gladly by Jackie and Billy.

ALAMEDA, Feb. 24.—Jackie and Billy, the 4 and 8-year-old sons of Lieutenant of Police D. Brasfield of San Francisco, aren't going to have anything more to do with fellers that wear brown corduroy suits and who want to run foot races, no sir-ee-nay.

Jackie and Billy were spectators at a ball game here Tuesday at Leland Park. They were arrested by a strange lad, about 10 years old, wearing a brown corduroy suit. He proposed that foot races be run and that the events be timed with Billy's brand new watch. Billy looked like a regular feller to Jackie and Jackie and the officer were accepted.

The round trip over the lot in creditable time. Then Billy and Jackie, acting on their companion's suggestion, tried to better his time. Billy handed his watch to the stranger to keep time and took across the lot with his youngest brother pounding close behind him. Whatever breath the lads had when they galloped up to the starting point was lost utterly when they found that the stranger feller with the brown cords had disappeared with Billy's watch.

And Billy and Jackie are looking for him.

Builders Are Sued for \$27,000 Damages

Damages of \$27,000 are asked by A. Galbraith against Palmer & Peterson, builders, in a suit just filed today. Galbraith charges that the builders agreed to construct a five-story concrete apartment house for \$144,000, but that when it was finished they demanded \$164,000 and some of the work was unsatisfactory.

U. C. Works Out On the Cardinal Basketball Court

STANFORD UNIVERSITY, Feb. 24.—The University of California basketball team had a second workout on the Cardinal court last night as they prepared for their game with Stanford Saturday night. The Cardinal court is a new one, and the team is getting used to it. The workout was held in the evening, and the team was in good shape. The coach, Coach Powell, was very satisfied with the team's progress. The team is expected to win the game against Stanford.

Agreements of Club Owners Made Clearer

NEW YORK, Feb. 24.—A rule of procedure for interleague warblers in baseball was made clearer today as the National League and American League agreed to a new set of rules. The new rules were designed to make the game more interesting and to protect the interests of the fans. The rules were agreed to by the owners of the clubs in both leagues. The new rules will be in effect for the next season.

PLESTINA NOT AFRAID OF LEWIS HEAD-LOCK

International Wrestling Editor. NEW YORK, Feb. 24.—The headlock has been a bad reputation, but it is not as bad as it is made out to be. Plestina, a famous wrestler, is not afraid of the headlock. He has won many matches using the headlock, and he is confident that he can win any match using it. Plestina is a very strong wrestler, and he is not afraid of any opponent. He is a true champion, and he is not afraid of any challenge.

Ireland's Team Handcuffed by Young Ludolph

Cliff Ireland's Independents, who twice defeated the University of California team, were defeated in eleven games by St. Mary's Phoenix team, 4 to 3, yesterday. Ireland's team was handicuffed by the young Ludolph, who was a very strong player. Ludolph was a very good pitcher, and he was able to keep the Irish team from scoring. Ireland's team was very disappointed in their loss, but they are confident that they can win the next game.

HALTON-DIDIERS WILL CINCH PENNANT WITH EITHER WIN OR TIE

By EDDIE MURPHY

Followers of The TRIBUNE Midwinter League, will be on edge for the next few weeks. The big talk around town yesterday was about the Class-A race race to which interest was added when the Halton-Diders were taken down the line for two defeats by the Coast Tire and Rubber team Sunday and Tuesday. The possibility of a triple tie for first place resulting has fans all over the city talking, and indications are that it will not be an easy job accommodating the crowds expected at the San Leandro and Alameda diamond. Next Sunday will bring the final games on the schedule, but it may not decide the pennant winner.

SEQUOIAH GOLF COURSE TO BE IMPROVED

Fowler's Suggestions Will Be Explained to the Members.

Next Saturday the members and directors of the Sequoia Golf & Country Club will be called together to discuss the proposed improvements suggested by Fowler. The improvements are designed to make the course more challenging and to protect the interests of the members. The improvements will be in the form of new holes, new bunkers, and new greenkeeping equipment. The club is confident that the improvements will be well received by the members.

All-Star Nine Wins From Hayward in Benefit Ball Game

HAYWARD, Feb. 24.—Before the largest gathering of the season, the All-Star Nine won from the Hayward team in a benefit ball game. The game was a very close one, and it was a real test of the team's skills. The All-Star Nine was a very strong team, and they were able to overcome the Hayward team. The game was a great success, and the proceeds will be used for a good cause.

GOSSIP OF THE ALLEYS

Danbury Hat Works, Waters Bros. Lumber and Hardware, and the other businesses in the area are doing well. The economy is strong, and the businesses are thriving. The people are happy, and the community is a great place to live. The businesses are all doing well, and the community is a great place to live.

Stanford Team to Play American Legion

STANFORD UNIVERSITY, Feb. 24.—The Stanford baseball team will play the American Legion team in a game on Saturday. The game is expected to be a very close one, and it will be a real test of the team's skills. The Stanford team is a very strong team, and they are confident that they can win the game. The American Legion team is also a very strong team, and they are confident that they can win the game.

Leonard, Welling to Meet in Ring Tonight

ST. LOUIS, Mo., Feb. 24.—Benny Leonard, the lightweight champion, and Tony Welling, the challenger, will meet in a boxing match tonight. The match is expected to be a very close one, and it will be a real test of the fighters' skills. Leonard is a very strong fighter, and he is confident that he can win the match. Welling is also a very strong fighter, and he is confident that he can win the match.

S. F. Boy Sets World Record on Motorbike

MEMPHIS, Tenn., Feb. 24.—Percy O. Leonard, a boy from San Francisco, has set a world record on a motorbike. He rode the bike for 24 hours, 20 minutes, and 30 seconds, covering a distance of 1,000 miles. Leonard is a very talented rider, and he is confident that he can set more records in the future.

Oaks Prepare Nine Games on For Invasion The California Of Myrtledeale Football Menu

Del Howard has planned to make a trip to Myrtledeale this week and see that everything at the Oaks' training camp will be in readiness by March 7, the date set for the players to report. The middle of next week will see most of the Oakland pitchers and catchers from Myrtledeale and Chas. Torman at Myrtledeale, as they have planned to get the jump on the car-takers of other positions. The arrival of signed contracts from Joe Rocking and Al White was good news at local headquarters, as it was rumored after the close of last week that Backing might not want to return to the team. Al White, who was highly recommended from the Tan-koen and is expected to put up a good fight for one of the infield jobs. When he is purchased, it was decided he would be placed at third base, but now that he has been signed, it is believed that he will be placed at first base. He will have a hard job landing at short, as Ray Brainerd made quite a hit at that position last season. The Oaks are preparing for a very strong team, and they are confident that they can win the game.

SHIPS, SHIPPING AND THE WORLD OF COMMERCE

SUGAR REFINING
PLANTS FIGHTING
OVER-RAW CROP

Controversy Started by Producers in Hawaii; Island Market Improves.

A fight between the Western Sugar Refining Company and the Hawaiian Sugar Refining Company, the plant of which is located at Hilo, Hawaii, is reported from Honolulu.

The plant, which has involved homegrowers on the Hawaiian Islands, is over the raw sugar crop. Formerly this has gone to the Hawaiian plant, but the Hawaiian plant has been ground by the Western Sugar Refining Company.

According to new reports, the mill has gone over to the Western, and the Hawaiian plant is now being operated by the Western. The Hawaiian plant is now being operated by the Western.

MONTELEONE, Feb. 24. (Continued.) The Hawaiian sugar stocks have strengthened under the impulse of the fact that the few days showing better conditions in the market.

The Hawaiian control board appointments together with approval of the Hawaiian appointments by the State Department at Washington, the Hawaiian control board appointments together with approval of the Hawaiian appointments by the State Department at Washington.

NEW YORK, Feb. 24. (Continued.) The Hawaiian sugar stocks have strengthened under the impulse of the fact that the few days showing better conditions in the market.

NEW YORK, Feb. 24. (Continued.) The Hawaiian sugar stocks have strengthened under the impulse of the fact that the few days showing better conditions in the market.

NEW YORK, Feb. 24. (Continued.) The Hawaiian sugar stocks have strengthened under the impulse of the fact that the few days showing better conditions in the market.

Clothing Prices
Show Decline
Report Buyers

NEW YORK, Feb. 24. Out-of-town buyers here today to place orders for clothing for men found prices ranging 20 to 40 percent lower than last year.

Prices 25 to 40 percent lower. Suits, 20 to 55 percent lower. Hats, 15 to 45 percent lower. Shoes, 10 to 55 percent lower.

Buyers from all sections of the country flocked here in a few days. The number of the prosperity here, except in a few semi-luxury lines like silk hose and neckwear, the buying was reported healthy.

Wheat Growers
Form 50,000,000
Bushel Pool

By International News Service. HUTCHINSON, Kan., Feb. 24. A wheat pool, the first of a series of similar pools, was formed here today by the Kansas branch of the National Wheat Growers' Association.

The pool will dispose of 50,000,000 bushels of the 1921 crop in Kansas. It will be under a one-man control.

The executive committee of the association today adopted final plans, including the names of A. C. Bailey of Kinsley, Kansas, as managing director of the pool. Bailey will dispose of the 50,000,000 bushels placed in the pool by Kansas farmers. The purpose, the committee announced, was to stabilize wheat prices during the coming season.

Every member of the wheat growers' association is bound by the committee's action. It was announced to turn over one-half of his 1921 crop to the pool. The pool is the first attempt at community control in the wheat market.

"We are going to stabilize the wheat market so farmers can get a fair price for their crop," said W. H. McGivern, president of the association. "We believe the action will stabilize the 1921 market."

McGivern also declared that other wheat organizations throughout the country would take similar action. He indicated that similar action might be taken by growers to dispose of their other crops.

Local Market Notes

Mexican tomatoes are being sold in the market. The price is about 10 cents per bushel. The market is fairly good.

Fruit Industry

OF WEST-MANAGED
BY HIGH RATES

Growers Declare the Cost Per Acre is \$250 More Than Before the War.

Declaring that California and northwestern citrus and apple growers are now paying from \$150 to \$250 an acre more than before the war to ship their fruit, growers are protesting against the high freight rates. The charge this week is particularly high with the Interstate Commerce Commission for a revision of rates. "The act was the start of a new light to reduce the freight rates which were advanced a quarter and then a third. The effect on the fruit and vegetable industry is being described as 'disastrous,' the defenders of the growers are paying the added freight charges.

Thomas O'Neil, president of the California Fruit Growers' Association, is quoted as saying that the freight rates on this year will be reduced to 100,000 acres. He says: "This is the most serious situation that has ever confronted the Pacific Coast fruit industry. The damage that will result, the entire commercial fabric of the west will be impaired if these immense quantities are not allowed to be shipped. The future prosperity of the entire Pacific Coast is in peril unless relief is forthcoming immediately."

1 P. M. Friday, February 25th SALE AT AUCTION ROOMS 1017 Clay St., nr. 11th Street, Oakland

MUST BE SOLD. J. A. MUNRO & CO., Auctioneers.

Larger Canners Make Big Cut In Fruit Prices

Apricots Cut More Than 100 Percent; Reduction Was Predicted.

An expected drastic cut in the wholesale price of canned fruits came today with the announcement of a revised price list by the California Packing Corporation.

The corporation represents the greater part of the California fruit canning industry and its actions set the pace for the smaller concerns. Several smaller packers are expected to revise downward and it has been predicted that one of them, Libby, McNeill and Libby, will issue a similar list.

Canned apricots, cherries, peaches and Bartlett pears show the greatest drop in price. For instance apricots, which were graded at 10 cents more than fifty per cent, the grade that was \$4.50 a dozen, is now \$2.15 a dozen.

OTHER PRICE CHANGES. Some other important changes are as follows: Apricots, from \$3.50 down to \$2.50 a dozen; peaches, from \$3.50 to \$2.50 a dozen; pears, from \$3.50 to \$2.50 a dozen. The price for new purchases.

The drop in price in the corporation's revised price list is the first in the history of the industry. Instead of declining by a series of small drops, the prices have been cut in one big blow. The new prices are the lowest in the history of the industry.
